#### PLANS TO "BURY" HIM

Did Guard Will Force Nomination for Governor on Roosevell.

[Special to The Times-Dispatch.]
New York, August 25.—Plans for the fundoing of Colonel Roosevelt, who wants to be temporary chairman of the Republican State Convention at Saratoga on September 27, in place of Vice-President James S. Sherman, who was selected for that office by the State committee on August 16, were formulated by Timothy L. Woodruff, chairman of the committee; William Barnes, Jr., of Albany, and other leaders of the Old Guard at a conference at Republican State headquarters today. There was every indication when . There was every indication when conference was over that Colonel sevelt will not be disappointed in

Roosevelt will not be disappointed in his hope that there will be plenty of sighting.

Mr. Woodruff returned to the city as the result of the publication of the letter which President Taft sent last Monday to Lloyd C. Griscom, chalman of the County Committee, in which the President charged Vice-President Sherman with duplicity in obtaining the place of temporary chalman. The letter, Mr. Woodruff indicated yesterday came as the big surprise of his life and he issued a statement explaining the part he had taken in the transaction of August 16. According to the State chalman the substituting of Colonel Roosevelt's name in place of Mr. state chairman the substituting of Colonel Roosevelt's name in place of Mr Sherman's by Mr. Griscom at that meeting came as a distinct surprise to him and entirely without warning. The name of Mr. Sherman, he said, had been agreed upon at the conference the night before the meting, and he did not consider it proper that precedent next day should be upset and another candidate substituted. Mr. Woodruff puts the responsibility for the action of the committee squarely up to Mr. Griscom. The State cnairman makes public a copy of a letter he sent to Colonel Roosevelt he day after the meeting of the committee, in which he explained the situation to Colonel Roosevelt have given the letter out himself.

Mr. Woodruff makes the point that Colonel Roosevelt should have notified either himself or National Committeeman William L. Ward and not Mr. Griscom the wave for Harmony.

Mr. Woodruff expresses the hope that

om that he wanted the office,
Mr. Woodrum expresses the hope that
harmony will prevail at the convention, and states that the only divergence of opinion should be entirely
along the lines of whether or not tha
platform shall declare for direct nominations

ations.

The fact that Colonel Roosevelt inlends to make a fight in the convenlon, he says, will go a long way to
arry out his theory that the convenlon system is superior to the direct
nomination method. Unlike either
Colonel Roosevelt or Mr. Barnes, Mr.
Woodruff does not express any desire
to have a fight. Conciliation is much
more to his liking.

Colonel Roosevelt or Mr. Barnes, Mr. Woodruff does not express any desirs to have a fight. Conciliation is much more to his liking.

Despite the peaceable tenor of the statement, however, only the modun operand of how the insurgents, headed by Colonel Roosevelt, are to be beaten, was considered at the conference, at which Mr. Barnes was the controlling spirit. The plan agreed upon by the Old Guard, it can be stated postitively, is the nomination of Colonel Roosevelt for Governor. By the plan in the candidate of the party this fall the Old Guard hopes to side-track him completely. It is the sentiment of most of the members that the Republican party is going down to defeat anyway, and particularly if Mayor Gaynor is the Demorratic nominee for Governor, and with Colonel Roosevelt nurled, he will be effectively disposed of both in the State this fall and in the nation if he deeldes to run again for President in 1912.

cations are plentiful to-night Indications are plentiful to-night that the Saratoga convention will be a memorable one. Mr. Barness plan of forcing the gubernatorial nomination upon the colonel was hailed as a master stroke by the machine members, who had been let into the secret. Mr. Barnes's irlends contend that the colonel is not any too conversant with the meaning of direct primaries, and Mr. Wadsworth, who has fought the plan consistently through the Legislature, will probably be put forward to give the colonel a debate on the subject.

This and the fight that will be made in the committee on resolutions, of which both Colonel Rooseveit and Mr. sarnes will undeubtedly be members, so likely to protract the session for hree or four days. This is what Mr. sarnes meant when he said he would ive the colonel all the fight he wants. Mr. Woodruff, explaining furtner to any before he went to Garden City better the president Taft's letter, admitted not the President as the President thad sent him a copy, to said he did not receive it, however, ntil this morning.

## ATTACKED BY DOG

Woman and Child Bitten by Animal That Was Mad.

Two persons were bitten by a dog which belonged to Jake Fisher, of Kensington Avenue, and which is declared to have been rabid. They are Mrs. Fisher and a child, Louise Nicholas, both of whom were bitten on Tuesday afternoom. It seems that in attempting to save a parrot, which was being killed by the dog, the child was being killed by the dog, the child was bitten in the ankle. In going to the assistance of the little girl, Mrs. Pisn-er, in turn, was attacked and was bit-ten through the hand. The child is ten through the hand. The child is undergoing the Pasteur treatment under the direction of Dr. Alfred G. Heen, and it is probable that Mrs. Fisher will also take this precautionary measures against any ill effects that might develop as a result of the bite

### MAY CHANGE HIS COLOR

Begro Badly Buraed When He Mixed Water and Lime.

While pouring water over a bucker of lime at Sixth and Main Streets yesterday afternoon an explosion occurred and Page Robins (colored), of 1114 North Fifth Street, was severely burned bout the face and head.

Dr. John W. Turman, with the City Ambulance, was summoned. He found that the lime had spattered upon Robins and burned the skin from his face and the hair from his head. Although a small quantity of the lime got in the man's eyes, it is not believed that the sight has been destroyed.

Dr. Turman ordered Robins sent to the City Hospital, where he received treatment. The physician said last night that Robins's skin will probably be changed from jet black to almost white because of the burns.

Governor at Funeral,
Governor Mann and his son, William
Hodges Mann, Jr., went to Blackstone
yesterday afternoon and attended the
funeral of ex-Congressman James F.
Epes, They returned last evening.

een coming across with their license taxes in satisfactory shape during the Secretary of the Commonwealth,
This activity is believed to be due

o the action of the Norfolk officers.

This activity is believed to be due to the action of the Norfolk effects, who have been after the owners who do not exhibit the number plates Some of the victims, it is understood, have been cited to appear in Police Court to-morrow morning. At all events, the checks are arriving, usually with an urgent request to hurry up the necessary papers and numbers.

Up to yesterday afternoon a total of 2.098 automobiles had been registered in Virginia since the beginning of the operation of the law on June 15. Some ten or fifteen applications a day are now being received. License Clerk J. M. Hayes, Jr., is inclined to the belief that probably 2.500 machines use the Virginia roads. Some of these are possibly in the possession of Washingtin people, who will comply with the law after they return to the city for the fall and winter.

#### WOULD ABOLISH SCHOOLS

Dr. Mann Objects to Centralization in

Dr. E. M. Mann, of Lunenburg county, a nephew of Governor Mann, lodged a complaint yesterday with the Department of Public Instruction regarding the action of the Brown's Store District School Board in his county. It seems to be the intention of this board to consolidate the primary schools of the district so that all the children will be required to go to Kenbridge, where, said Dr. Mann, all the members of the board reside.

He does not think this plan prac-

the members of the board reside.

He does not think this plan practicable, for the reason that the roads are had and he does not believe wagon service would be satisfactory. The stitution would, in his opinion, present the alternative of several hours of work every morning in collecting the pupils, or else that some of them would be compelled to come from off the main road and wait in the cold or rain for the wagon on the main highway.

### MAKING BOOK CONTRACTS

Attorney-General Will Require Forelgn Concerns to Domestiente.

eign Concerns to Domesticate.

Attorney-General Samuel W. Williams yesterday completed the preparation of the contracts to be signed by publishing houses to whom the contracts for high school books have been allowed. Some three or four of the companies are said to be ready to sign. Foreign corporations will not be allowed to subscribe to the contract until they have procured certificates of authority from the State Corporation Commission, which, it is understood, the larger firms will do.

It is possible that some concerns which have the contract for only one or two books will not find it profitable to pay the entrance fee. In these instances the contracts will be let to other parties.

### Requisition Granted.

Governor Mann yesterday honored a requisition from Governor William E. Glasscock, of West Virginia, for Richard Anderson, who is accused of burglary in Greenbrier county, in that State, Anderson is under arrest at Covington.

### Reward Renewed.

The Governor has renewed the offer of \$100 reward for the apprehension of Harrison Thompson, colored,
who.is charged with the murder of H.
Milton Seaton, town sergeant of Middieburg, Va., on November 25, 1899.
It is presumed that Sheriff T. W.
Edwards, of Loudeun county, has some
wind of the whereabouts of the man.
He writes that two negro brothers cut
the sergeant to death. One of them
was convicted and given eighteen
years in the penitentiary, but the
other, who escaped, is regarded as
the principal. The sum of \$200 is offered by citizens and the county. The
State reward is renewed for ninety
days.

Chief Clerk Charles A. Miller, of the Department of Agriculture, has re-turned from Albemarle country, where he has been at the hedside of a des-perately III child, who is recovering.

The bearing of children is frequently followed by poor health for the mother. This supreme crisis of life finding her physical system unprepared for the demands of nature, leaves her with weakened resistive powers and sometimes chronic ail-

Under Ideal Weather Conditions Great Pageant Is Held in Alexandria,

#### THOUSANDS THRONG CITY

Twelve Hundred Members and Twenty-eight Companies Take Part.

[Special to The Times-Dispatch.]
Alexandria, Va., August 25.—Under ideal skles and with ideal weather conditions prevailing, and with a slight breeze, just sufficient to produce the right atmospheric conditions, the annual parade in connection with the twenty-fourth annual meeting of the Virginia State Firemen's Association was held in this historic city this afternoon. It was one of the best pades ever before held under the auspices of the association. About 1,200 firemen were in line of march, representing twenty-eight companies, from every city and hamlet in the State, and there was twelve bands of music.

The passing fire pageant was lustify

there was twelve bands of music.

The passing fire pageant was lustily cheered by the thousands who had gathered here to witness it, among them being many thousand from Washington. All companies as they passed along the line of march were cheered, regardless of appearance, while the bends played patriotic airs. "Dixle," as usual, brought forth lusty cheers.

The day was busy from early morning. Firemen paraded around in their bright colored uniforms, and bands pa-

The day was busy from early morning. Firemen paraded around in their bright colored uniforms, and bands paraded up and down the streets, while the throng of early arrivals spent their time in looking over the decorations, and points of interest. Early in the atterneon the big throng began to assemble, and by 2 c'clock the old town was filed with visitors.

Everybody appeared happy. There was no dissention, and Alexandria in its holiday dress presented a gala appearance.

Everybody appeared happy. There was no dissention, and Alexandria in the happy throng, which had assemble for the parade.

Exhibition on Water Front. At 10:30 c'clock this morning the crafts firefighter, of Washington Fire Department, in command of Capt, Jacob Stulz, arrived at this port, bringing thirty-seven firemen from Washington, who participated in the parade. A rousing welcome was accorded the Firefighter by the shrieking of whistiles and ringing of bells. Practically all the crafts along the river front. Historic Old Engine.

The historic old Friendship fire engine, of which company Washington was a member, attracted much attention in the parade as it was drawn by four stalwart iron gray horses. Pollowing it came a reel, belonging to the company. The reel was drawn by two iron gray horses. Scated on the back of the old engine was little Alvin Friedlender, representing a fireman, and a young son of Dallas Peyton, representing General Washington. Behind the old engine rode twelve members of the company, many of whom are bent with age.

The Commbia Fire Company, this city, had all of its apparatus in line. A handsome reel, finished in gold and lavishly and artistically decorated, was greatly admired as it was drawn by forty members of the company in the procession. The reel had suspended above it a beautiful piece representing a gate, over which was a white dove. Artificial lilles and white and redroses, together with two large butterflies, also added to its general attractiveness. A little girl dressed in white occupied a seat on the back of the reel.

# HENRY WARD IS A CABLE AD EVERY DAY MUCH DIVIDED Expert Service

Resignation of George E. Wise Presents Interesting Problem to New Council,

lem to New Council,

From the present indications it is hardly probable that the Henry Ward delegation in the Council will undertake a caucus to nominate a successor to Councilman George E. Wise, who has placed in the hands of President Peters his resignation for the entire period of the new term to which he was elected. Members of the ward delegation are at variance as to their candidates, and it may be that there will be more than one nomination on the floor of the Council, without any concerted action on the part of the delegation from Henry.

Councilman Huber was first in the field with a candidate, naming Samuel Steiner, a pawnbroker and member of the City Democratic Committee.

President Peters is said to favor Wallace C. Saunders, a West Leigh Street druggist, Fred H. Powell and A. L. Vonderlehr deny that they are piedged to any one, seeming to contradict the announcement of Mr. Steiner's supporters that he had three of the four members of the ward delegation problems to be determined by the new Council, especially if the ward delegation continues to be divided.

RICHARDSON HONORED

#### RICHARDSON HONORED

Loving Cnp Presented to Chairman of Electricity Committee.
At a special meeting of the Council Committee on Electricity last night, Councilman Huber presented on behalf of the committee to Chairman E. Douglas Richardson a silver loving cup. Mr. Huber spoke especially of the chairman's efficiency and his close attention to the details of the erection of the municipal electric plant, now nearing completion. Mr. Richardson replied briefly, thanking the committee for the expression of its appreciation and confidence, and thanked the members for their courtesy and attention to the business or the department.

have been lost in the wreck, and the

woman and child who have not been identified are believed to be mother and son, as the little one was found in the woman's arms.

Only a blackened watch, a diamond studded crucifix and a locket, bearing the initials "H. S. L." were found in the search for clues to the identity of the burned corpses.

Engineer Spencer, of the second section, when he heard the torpedo signal that there was a train standing on the track ahead of him. An exploded torpedo was found to-day fifty rail lengths or 1,500 feet from the scene of the collision, and Assistant Superintendent Ehrke, of the Grand Trunk, said that the section could have been stopped in 800 feet. Brakeman G. R. Graham, of the forward section, to-day declared that he ran back nearly a mile with the torpedo, and that he waved a red light to stop the oncoming train. Graham also disputed the contention of Engineer Spencer, of the second train, that the tail lights of the forward section were not burning. This afternoon Graham could not be located by the railroad officials.

In the woman's arms.
